

ISPRS Summer School - 2024

The International Society of Photogrammetry and Remote Sensing Student Consortium (ISPRS SC) serves as the official representation of students and young professionals to ISPRS, fostering connections among those passionate about photogrammetry, remote sensing, and geospatial information science.

We are delighted to announce the upcoming Summer School on “*Spatial Technology and Enhance Spatial data services*” organized by the (ISPRS SC) and Institute of Surveying and Mapping, Diyatalawa (ISMD), the training Institute of Survey Department.

This transformative event will take place at the ISMD from 05th October to 09th October 2024.

Our aim is to facilitate knowledge exchange, networking opportunities and the integration of students and young professionals into ISPRS activities.

Join us for an enriching experience that combines education, collaboration, and connection.

Together, let's explore the frontiers of our discipline and forge lasting bonds within the global community of ISPRS.

We look forward to welcoming you to the Summer School and wait for more information soon.
